PROFESSIONAL EXPERIENCE

Senior Full Stack Developer / Squad Lead | Mtel | Sep 2025 – Present

- Designed and implemented automated **CI/CD workflows** using **GitHub Actions, Terraform, cron jobs, and Fastlane**, **reducing deployment effort time from hours to 15 minutes**, maintenance overhead, and release turnaround time.
- Worked as Squad Lead to develop applications for shopping mall shoppers including Visitor Pass, Parking System, and customer service features while **optimizing report export functionality and reducing processing time by 80%**.

Senior Full Stack Developer | Outsource at SCB | Apr 2025 - Sep 2025 (Contract)

- Led the development of customer financial insight application, working on both frontend and backend API design.
- Implemented **microservices, Kafka/SQS-based asynchronous process**, and **gRPC services** to support scalable features.
- Collaborated closely with **SA, QA testers, and partner teams**, participating in cross-team meetings to align requirements and solve complex system issues.
- Reduced **cloud database infrastructure costs by 40%** through architectural optimizations.

Full Stack Developer | Freelance | Jan 2021 - Mar 2025

- Developed full-stack web applications, APIs, CMS platforms, and business systems using **Node.js, React, Ruby on Rails, Laravel, and Wordpress**.
- Gathered requirements, designed databases, **optimized SEO**, and delivered customized solutions for multiple clients.
- Developed company websites, **POS systems, Web Applications, Restaurant System, Online Course Selling Platform** using modern frameworks including **NodeJS, Laravel, React, Firebase and Wordpress**.

Software Engineer | Seekster | Aug 2020 - Nov 2021

- Developed multipurpose applications for shopping malls including **Parking Systems, Billing Systems, Lease Management, Payment Gateway Integration, third-party authentication**, and legacy system migration.

Web Programmer | Owndays Tech&Media | Dec 2018 - Aug 2020

- Collaborated with a team to develop E-Commerce platforms, **discount coupons, product search, payment gateway integration, stock management, membership systems, and HR management applications**.
- Trained and mentored **junior developer** in the team.

Junior Full Stack Developer | MW Design & Marketing Udon Thani | Aug 2017 - Oct 2018

- Assisted in developing and maintaining web applications using React, Node.js, and TypeScript while collaborating with manager to deliver new features and bug fixes.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, SQL, PHP, Java, Ruby, Go, HTML, CSS, SASS.
- **Frontend/Backend:** React, React Native (Mobile), Next.js, Node.js, NestJS, Laravel, Redux, Tailwind, Rails.
- **Database:** Redis, Firebase, PostgreSQL, NoSQL, DynamoDB, MongoDB, Elasticsearch.
- **Cloud Infrastructure:** AWS (ECS, EKS, Lambda, S3, RDS, SQS, IAM, VPC, CloudFront), Docker, Kubernetes, Terraform.
- **Architecture & Messaging:** Microservices, Event-Driven Architecture, Kafka, RabbitMQ, gRPC, Clean Architecture.
- **CI/CD & Testing:** GitHub Actions, Jenkins, Fastlane, Jest, Mocha, Vercel.
- **English:** Comfortable working in English-speaking environments, TOEIC Score 840 (2020).

Personal Projects: Real-time Multiplayer Board Games: Built multiple real-time multiplayer games using PhaserJS, Node.js, and Socket.IO to handle live player synchronization and event communication.
